DESK

AN ADULT DIGITAL EDUCATION SKILLS KIT TO FOSTER EMPLOYABILITY
PROJECT NO. 2018-1-EL01-KA204-047

To provide Adult Educators with the means to understand the uses of Augmented Reality and integrate it into their teaching.

DESK mainly targets the group of Adult Educators, the end beneficiaries are Adult Learners needing to catch up.

Five distinct Intellectual Outputs, of which the final two will be the DESK Toolkit and the Online Guide.

Seven organizations from an equal number of countries have partnered up.

RESULTS

1

Review on Education Using Augmented Reality

A study about the possible application of the AR in education.

2

Adult Digital Education Skills Kit Curriculum

Reporting the subjects on modern Adult Skills opted in the Labor Market, focusing on digital literacy.

3

Case-Studies of AR for Adult Education

Case-studies will be created to depict an adult training happenstance which uses the AR.

4

DESK Tool Kit

A number of digital sources developed during this project, as well as an e-learning course.

5

Online Guide for Using DESK Tool Kit

A guide on how the Trainer can motivate his group to gain skills needed in the Labor Market.

Erasmus+

An Adult Digital Education
Skills Kit to Foster Employability

**DESK is here to bridge the gap between
the needs of Adult Learners and the
skills offered by Adult Educators**

The main goal of DESK is to provide Adult Educators with the means to understand the uses of Augmented Reality and integrate it within their teaching, thus making Life Long Learning an attractive process for Adults needing to catch up, by creating the DESK Toolkit.

This project started on November 1st, 2018 and has a duration of 30 months.

DESK project is a joint
venture of seven
organizations from
seven European
countries.
